# Report of Superintendent of Schools

---

To the Superintending School Committee and Citizens of the Town of Jackman, I herewith submit my annual report as to the condition of our schools:

The past year has been a successful one, our enrollment has increased and our standards of scholarship are being advanced, while parents, teachers and pupils are working harmoniously together for the common good.

## GRAMMAR SCHOOL

The Spring term was successfully taught by Mr. LeClair. Of the class graduated last June, two have entered Moose River High school, where they are doing creditable work. At the opening of the Fall term the school was placed in charge of Mr. Maynard Douglas, a graduate of Castine Normal school. Mr. Douglas entered into his work with enthusiasm, and has proved himself an efficient teacher. We have four grades in this room, the 4th, 5th, 8th and 9th, the 4th being transferred here during the Winter term, as the Primary school was overcrowded.

## PRIMARY SCHOOL

The pupils of this school have been under the efficient instruction of Mrs. Williams, who although somewhat handicapped by the large number of pupils, and numerous grades, has secured excellent results.

There have been several children attending here who reside somewhat nearer the Station school, should the number of these increase materially it will be necessary to transfer them to that school as our seating capacity here is practically exhausted.

### STATION SCHOOL

At the close of the Spring term Mr. Young decided not to return and Mr. Arthur Stowell was elected to fill this vacancy, which he has done to the satisfaction of parents and school officials.

Accurate grading is difficult in this school, as children have entered from time to time in widely varying stages of progress, being much farther advanced in one or two subjects than in others. An effort has been made in each case to place the child where he will receive the greatest possible benefit. Reading should receive very careful attention here as some of the pupils, especially in the lower grades, have difficulty in reading English readily and understandingly, which is of course a serious obstacle to rapid advancement in other studies.

### REPAIRS

These have been rather extensive, but in every case the results have amply justified the outlay. A set of toilets has been installed on both floors of the Payson Smith school, these have given entire satisfaction, and have completely abolished the former unsanitary conditions.

Extensive grading has been done on the grounds, which has not only greatly improved their appearance, but has greatly increased the area available for a playground. This work should be continued until the

entire surface has been leveled and put in good condition. The Payson Smith building is in need of paint both inside and out, the floors are also in poor condition and should be painted or oiled. An additional case or closet for books and supplies is needed here, also at the Station school.

In addition to necessary repairs and supplies we have a considerable amount of insurance falling due this year.

### ATTENDANCE

This has been greatly interrupted by sickness, there being few children who have not lost several days from school on account of la grippe or bad colds, while some have lost the greater part of the Winter term.

In addition to these necessary absences, there are still some who do not yet fully realize the importance of regular attendance. The child who is frequently and unnecessarily absent falls behind his class, loses interest and usually leaves school altogether as soon as the law will permit, having received but little benefit from the money expended for schools.

In closing I wish to express my appreciation of the unfailing support and co-operation I have received from the School committee, teachers and citizens of Jackman. In conjunction with the School committee we ask you to consider the following recommendations.

Common schools,	\$600 00
High school,	540 00
Textbooks,	125 00
Repairs, supplies, and insurance,	450 00
Superintendent of schools,	100 00

Respectfully submitted,

WILLIAM A. TAYLOR,      RUSSELL S. TAYLOR,  
FROST WILLIAMS,      Superintendent of Schools.  
JOHN B. STERLING.

School Committee.

## Auditor's Report

---

To the Inhabitants of Jackman Plantation:

The accounts of the Selectmen, Town Treasurer and School Committee for the fiscal year ending Feb. 29, 1916, have been duly examined by me and I find the same to be correct, with all payments properly vouched for.

ABRAM NEWTON, Auditor.
